

BRIMES CRAZED BY DISORDERED PANT.

Inhale Its Deadly Fumes While at Work and Suddenly Lose Their Reason.

One Stands in the Street, Believing He Is a Statue of the Saviour.

Captured Only After a Fierce Struggle and Sent to a Newark Hospital for Treatment.

OTHER ROAMING IN THE WOODS.

Faint's Fumes Said to Be Harmless So Long as the Workmen Do Not Touch Whiskey, When It Soon Claims Its Victims.

Perth Amboy, N. J., Nov. 24.—Two brothers, Paul and Andrew Ober, living here, have gone insane, and it is said they were crazed by using paint that contained carbon-bisulphide, a deadly poison.

The brothers worked together at the M. Guzenheim's Sons' smelting works, on the outskirts of this city, and had been painting the interior of acid tanks with the paint that exhales the carbon-bisulphide. Both men lost their reason simultaneously, but their insanity took different forms. They were stricken Sunday, and Andrew, the older brother, became imbued with the idea that he was a statue of Jesus Christ, and stood for thirty-six hours at the corner of Wayne street and Railroad avenue with a crucifix in his hand, hardly moving a muscle the while. It required the combined efforts of four men to get the man to his home.

Dr. Wilson and Dr. Brice, both saw the man and he was sent to St. Michael's Hospital, Newark, for treatment last night. The men boarded with a Mrs. Chisley, and Paul remained in the house all day Sunday. Mrs. Chisley asked why he did not go out and get some fresh air. He replied: "I don't want to go out." Suddenly he jumped to his feet, knocked Mrs. Chisley down and fled from the house with a wild yell, without hat, coat or vest. He was seen to-day by a friend near the office of Guzenheim works, and the friend said he was looking for work, forgetting that he was an employe of the place. He led into the woods before he could be captured, and it is supposed that he is still roaming in the forest.

A representative of the Guzenheim people told a reporter to-day that it was the third instance where men in their employ had gone insane from working at painting the tanks. He said no injury resulted from contact with the paint so long as the men ate whiskey alone, but if a nervous man makes a few drops of whiskey and the fumes of the carbon bisulphide it may produce insanity. The two brothers, he thought, were peculiarly susceptible to the deadly fumes.

VANDALS WRECK A CHURCH.

Turn the Pews Upside Down and Desecrate the Interior—Destruction in a School.

Plainfield, N. J., Nov. 24.—The citizens of Scotch Plains and Panwood are greatly agitated over the depredations committed in the public schoolhouse and All Saints Protestant Episcopal Church, in which many things of value were either stolen or destroyed. The interiors of both buildings were turned topsy-turvy by the vandals. In the schoolhouse they pried open the desks of the instructors and removed several articles of value. In the church, the desks in a desk could not be pried open and the desk was turned upside down and the bottom smashed. Among the things taken were a few bottles of whiskey and a small statue of the Virgin Mary. The vandals were caught by Dr. J. Ackerman, who was in the church at the time, and were taken to the police station. The property was valued at \$100.

In the church edifice the vandals turned the pews upside down and made a communion service was held, but was found by two boys while hunting, as told in to-day's Journal. The property was valued at \$100.

The vandals are working on the case, and it is believed that the thieves live in that vicinity.

STATEN ISLAND'S GOOD ROADS

Two Fine Thoroughfares Patented by Wheelmen to Be Completed.

Stapleton, S. I., Nov. 24.—Supervisor Doyle is anxious that the borough of Richmond shall have good roads, and not wishing to rely on the city fathers of the Western New York, introduced a resolution at the meeting of the Board of Supervisors to-day, which was passed, asking the county engineer to advertise for bids for the completion of the Traversville, Bull's Head and Littletonville roads, also to submit a statement at the meeting of the board showing the condition of the various avenues of travel in the county, so that the supervisors can determine just what repairs can be made before the new city charter takes effect.

The roads at present are the best in the county, and are patronized by thousands of wheelmen from the metropolis.

HUNTER GIVES A COON DINNER.

Successful Ending of a Five Days' Hunting Trip in the Jersey Mountains.

Mariners' Harbor, S. I., Nov. 24.—William H. a prominent resident of this place, gave a coon dinner last night as a wind-up to a successful hunting trip just ended. Him and a party of friends in the mountains about White House Station, J.

The hunting party included, in addition to Mr. Smith, John Deegan, of Mariners' Harbor; William Lyman and Mr. Cron, of Port Richmond; and James Lewis, of Princes Bay. The hunters were absent five days, and bagged thirty rabbits, twenty quail, and two coons which were served at dinner last night. The coon skins will be made into rugs.

Searching for an Heiress.

Camden, N. J., Nov. 24.—Chief of Police Dodd has received a communication from Mrs. L. A. Lester, of Chicago, inquiring as to the whereabouts of Georgiana Grant, or as she was known, Mrs. Davis, whom Mrs. Lester wrote, resided on Third and Washington streets, this city. It is said that Mrs. Davis is heiress to an estate, but thus far Chief Dodd has been unable to locate her.

Costly Volunteer Fire Department.

Atlantic City, N. J., Nov. 24.—The Common Council is considering the advisability of turning the Fire Department from a volunteer into a paid department. It is now costing between \$10,000 and \$15,000 for the department, and it is claimed that the cost of the department which was a paid one, would be under this figure.

EX-MAYOR HANOS HIMSELF

Had Been Disinherited by His Brother, from Whom He Expected Much—He Is Cut Down, but Will Do It Again.

Phillipsburg, N. J., Nov. 24.—Ex-Mayor Peter H. Hagerty, of this place, made an attempt to commit suicide this morning. He went to his son's livery stable in the rear of his place, and going to the second floor, fastened a strap around a rafter and then around his neck. He kicked a small box upon which he stood from under his feet.

His daughter-in-law, who heard the noise, summoned help. A butcher, who was passing, ran into the stable and with his butcher's knife cut Hagerty down. The ex-Mayor was black in the face, and a few minutes later would have been beyond help. He soon revived, however.

Hagerty has been Mayor of this place several times, County Attorney, and held several other political offices. He is at present a Justice of the Peace. His brother, who died last week, was very wealthy. Peter Hagerty thought that his brother would leave him some of his wealth. When he found out that he had been left nothing he became despondent. A drunk very near him, a wealthy person after he was cut down that the next time he made the attempt he would succeed. Hagerty was an undertaker for a number of years, and of late has been following his trade, that of a carpenter.

COL. WARING WILL ATTEND

Important Subjects to Be Considered at the Annual Meeting of the Jersey Sanitary Association.

At the 22d annual meeting of the New Jersey State Sanitary Association, which convenes in the Laurel House, in Lakewood, on Friday, December 11, many questions of great interest to the public will be discussed. Professor J. C. Smock, State Geologist, will read a paper on the "Improvement of the Newark Meadows." Street Commissioner George E. Waring, Jr., of Newark, will make an address before the Institute of Clean Streets on the "Health of Cities," and many leading professors will treat important subjects after special preparation, and the meeting will continue for two days, two being held on Friday and one on Saturday.

The program as prepared by Dr. James A. E. E. secretary of the association, is now ready for printing. From advance proofs the following subjects with the assigned speakers are taken: "Inspection of Factories," Dr. Joseph W. Stickler; "Improvement of Sanitary Administration in Townships," Dr. James A. E. E.; "Public Health Laws of New Jersey," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B. Baldwin, chemist of the Newark Health Department; "Advantages of a State Laboratory," Professor H. D. McCormick, of Princeton; "Infectious Diseases Among Animals," Dr. W. H. Low; "The Influence of the State on the Health of Cities," Judge W. M. Lanning; "Inspection of Dairies," Geo. W. McGuire, State Dairy Commissioner; "Progress in Public Hygiene," Professor C. H. Brackett, M. D., U. S. Dept. of Hygiene; "Influence of Schools on the Spread of Diphtheria," Dr. S. H. Durgin; "The Influence of the State on the Health of Cities," George E. Waring, Jr.; "Water Supply of the City of Newark," Herbert B.
